Core 1: Hardware and Network Troubleshooting

Core 2: OS, Software, Security and Operational Procedures

Practice Exams for CompTIA A+ Certification: Core 1 & Core 2

Arrian Munsod

has successfully completed the online, non-credit Specialization

Preparation for CompTIA A+ Certification

This specialization is your gateway to a thriving IT career and consists of three courses to equip learners with the skills and knowledge needed to excel in the IT industry. Designed for learners with basic IT fundamentals and troubleshooting skills, this specialization prepares learners for the CompTIA A+ Certification exams, positioning them as a valuable asset to organizations seeking proficient IT professionals. Upon completion, learners receive an IBM credential and gain a competitive edge for the CompTIA A+ Certification Exam. Familiarity with IT fundamentals (ITF+) is recommended before enrollment. If you lack this background, consider the IBM IT Support Professional Certificate or IBM Information Technology (IT) and Cloud Fundamentals Specialization to learn these skills.
